### Paramount USB Port Strain Relief Installation

The components in the Packing List table below can be used to relieve strain, mitigate potential damage to, and increase the duty cycle of the Paramount's mini-B USB port.

#### Packing List

Photo	Quantity	Description
	1	USB 2.0 Mini B Female to Right Angle Mini B Male Extension Cable.
	1	Adhesive cable clip.

#### Installation

Installing the strain relief components is straightforward:

1. Before removing the adhesive tape, with the hinge facing down, place the clip next to USB port on the Electronics Box, aligning the outer edge of the clip with the outer edge of the Electronics Box. This is the optimal orientation of, and position for, the clip (see Figure 1).

The clip should be attached so that there is at least ½-inch between the outer edge of the USB port and the center of the clip. Any closer makes locking the clip when the USB cable is threaded through the clip difficult. If necessary, trim the edges of the clip's mounting surface to allow a greater distance between the port and the clip.

2. Remove the adhesive tape from the back of the clip and affix it to Electronics Box at the position described above.
3. If necessary, use your fingernail or a small, slotted screwdriver to unlock the clip.
4. Plug the USB cable into the USB port, and thread the cable through the clip.

5. Press the clip until the cable locks into place.

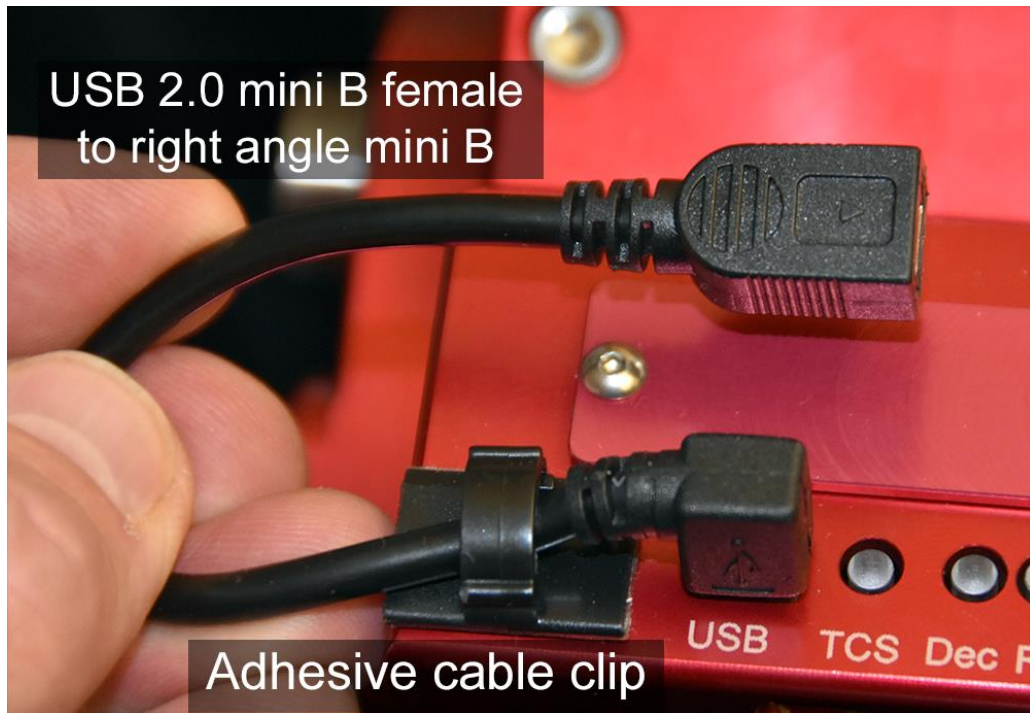

Figure 1: The right-angle mini-B connector plugged into the USB Port is captivated by the adhesive cable clip.

The extension cable is now securely and conveniently attached to the mount. Plug the standard USB cable into the end of the extension cable, and you're ready to observe!

### Purchasing Information

Use your favorite search engine to locate and purchase the items below.

#### USB Extension Cable

Name	Length/Dims.	Description	Supplier/Mfg.
USB 2.0 Mini B Female to Right Angle Mini B Male Extension Cable	152 mm (6-in.)	Be sure the right-angle connector you purchase plugs in so that the extension cable runs to the left, not the right, or down.	YCS Basics
Adhesive cable clip	15 mm x 19 mm (0.6 in. x 0.75 in.)		3M
